

Customer Solutions

Agricultural Products

LTE-group transports over 1 mio tons of grain per year in more than 1,000 customer owned wagons.

Intermodal Traffic

From North to South, from East to West, LTE-group runs more than 40 container trains per week.

Construction and Raw Materials

Since the beginning of LTE history we have satisfied our clients' needs in the raw material business.

Chemical and Petroleum Products [including RID]

As a specialist for RID-transport we move all kinds of dangerous goods fast and safe from the origin to the final destination.

Cars and Components

We are able to provide direct trains – without cost-intensive locomotive exchange at border crossings – for a safer delivery of your goods.

Transfer of Rolling Stock

No matter if transporting empty new-built wagons, prototypes of locomotives, electric railcars or underground railway sets, we are your partner for special transports.
